Dear Parents, Greetings!

INTRODUCTION OF TWO LEVELS OF MATHEMATICS FOR ALL INDIA
SECONDARY SCHOOL EXAMINATION FROM THE ACADEMIC SESSION ENDING
MARCH, 2020 ONWARDS .

As per NCF 2005, not only would the two levels of examinations cater for different kinds of learners and allow different levels of testing, it would also reduce overall student stress levels. It is well known that students experience greatest stress before and during their most 'difficult' subject exam. Keeping in view of this important aspect and as evidenced by the Board results, **the Board has decided to introduce two levels of examination in Mathematics for the students who are going to appear in the Board examination for the academic session ending March 2020 onwards as per CBSE official Circular No Acad-03/2019, dated 10th January 2019.**

The details of this scheme are as under :

- The two levels of Examination will be held in the subject of Mathematics in the Board examination (Written Exam) for Class X in the year 2020 and the same shall not be applicable to the Internal Assessment in Class X.
- First level would be the same as the existing one, and the other would be an easier level.
- The nomenclature for the two Examinations will be; **Mathematics-Standard for the existing level of examination, and Mathematics-Basic for the easier level of examination.**
- The syllabus, class room teaching and internal assessment for both the levels of examination would remain the same; so that the students get an opportunity to study the whole range of topics throughout the year.
