

NEVER GIVE UP

Once there were three friends – Lucy, Alina and Shyna. They decided to go on a trek in the summer vacation. The two friends – Lucy and Alina were afraid of heights. Lucy didn't like climbing the hill as she was afraid of the insects that could bite her while climbing the hill. When Shyna told them that they were going to climb the tallest hill near their house they hesitated. Shyna explained that if they keep on hesitating they will never be able to overcome their fear. Shyna told, "Let's start the journey and will take a halt in the middle of the journey. If you find climbing the hill interesting, then we will continue our journey the next day." When they took a halt it was dark, they could not see

anything . Shyna told them to wait till the morning .

When they got up in the morning they saw the beautiful view of a waterfall and heard the chirping of birds, strange noises made by animals and also saw monkeys climbing and playing on the trees. The mesmerising beauty around made them forget their fear. They started to climb again. When they reached the top the view was more beautiful and wonderful.

They clicked photographs and enjoyed the beautiful nature . Now Alina and Lucy were not afraid of heights and they got to know that if they would have given up they would never have been able to be a witness to this overwhelming and enthralling beauty of nature and achieve anything in their life .
