

EVS ACTIVITY

A HOUSE IS A MUST

Igloo making activity

LEARNING OUTCOME: To enable them to understand different types of houses and their importance and sensitivity towards surroundings.

The students will be asked to bring a small plastic container, paper plate, cotton, and glue. The container will have a cut out which will take the shape of the door to the igloo. This will be stuck on the paper plate. Cotton will be stuck all over the container, in such finally giving it an igloo shape.

Class will understand different types of houses are in different types of climates. A house is a necessity of life.
