

Principal's Message on Independence Day

Dear Teachers, Students and Parents

Heartiest greetings on the 74th Independence Day !

At the outset, I offer my reverence and tribute to those frontline corona warriors who have lost their lives in battling the Covid-19 virus. I salute all the doctors, policemen, essential service providers and social workers who are battling the spread of Covid-19 and helping the society through their services in such turbulent times. Their dedication commitment and courage deserves our deepest gratitude and admiration. Also my deepest tribute to the martyrs who sacrificed their lives at the India- China border . We sleep in peace because they stand guarding the borders. Let us not forget to honour and thank, all our soldiers on each passing day.

In the present situation, the Independence day celebrations have mellowed down but definitely our spirit of patriotism can never fade away.

Keeping in mind the safety of the students the school continues to strive to reach out to them and learning continues from the comfort of their homes .

The online education system has been successfully adopted and it is ensured that students are fruitfully engaged in learning. Our school has completely transformed into a digital school. All academic activities of the school are being carried as per schedule. School is not only conducting regular online classes but has also conducted online examinations, club activities, activity classes, celebrations but also elections for the student council through online system. I am happy that not only the school but also the students and parents have adapted very well to this new mode of learning and are cooperative with the school. I thank all parents for their unending support to the school.

In these testing times, I urge parents to develop a culture of strong family support system where parents and children strengthen the bond of love and help one another . With so many challenges before us, let us face them bravely with great responsibility and optimism.

Dear students, you need to develop love and respect for your country. It is aptly said- 'Ask not what your country can do for you but what you can do for your

country.’ You can contribute to the country by nurturing your talent, through hard work and creativity. Give your hundred per cent to every task and responsibility you undertake and give back to the society more than you receive.

Last but not the least, on this Independence day let us honour every patriot, every soldier and every frontline worker, whose valuable service cannot be repaid by us. The need of the hour is to carry out our duties to the best of our abilities and extend our support in preventing the spread of this pandemic by following the safety protocols announced by the government.

Let us stand up in solidarity in this unprecedented time to make our nation stronger !

Stay Healthy ! Stay Safe! Jai Hind !

Principal
