

CELEBRATING THE BANDHAN

Celebrations bring with them loads of joy, positivity and well wishes. The students of DAV Public School, Thane, commemorated the auspicious occasion of Raksha Bandhan accompanied by the festivities of Vriksh Bandhan. Bandhan literally means the bond or tie between two individuals. It often refers to the emotional connect that is shared by the individuals. Raksha Bandhan and Vriksh Bandhan, both are bonds nurtured with love and care and bring out the true essence of the relation that a brother and a sister share and a relation of gratitude that human beings share with Mother Nature. A brother always protects his sister from all obstacles and shields her from negativity. The sister too wishes the brother a long life full of prosperity. Similarly, Mother Nature, in the form of trees protects and helps us in innumerable ways and that is where a bonding of love and protection comes.

To enrich and highlight this auspice, the students participated wholeheartedly in the various events of the celebrations. Beautiful and creative rakhis were designed and made, paintings and festoons adorned the classrooms and walls, poems and speeches in praise of Mother Nature and trees were presented by the students. These were followed by an awareness program to throw light on the burning issue of conservation of trees. The grandiose celebrations came to a close after various saplings were planted and short songs were sung by the students highlighting both the occasions. The students thereby enjoyed a fun and learn session.
