CLUB ACTIVITY REPORT– MAY MONTH
CREATIVITY CLUB

RECREATE, REINVENT AND REFURBISH.....

Creativity is experimenting, taking challenges, breaking rules, making mistakes, having fun, inventing and learning something in an innovative way. Keeping in mind the overall and holistic development of the students, D.A.V Public School, Thane, conducted the May Month Club Activity with great zest and zeal which genuinely helped to identify and develop the inner talents of the students.

Ensuing the vacation in the month of May along with the moods of the children, the activity primarily focused on recreate, reinvent and refurbish, so that they can deploy themselves into something creative, innovative and which arouse the students' interest. Undoubtedly, it witnessed the swarm of participants in all the fields, whether it was...

- i) Solo Vocal (Any non-filmy song)
- ii) Solo Instrumental (Any musical Instrument; any non-filmy song)
- iii) Solo Dance (Classical/semi-classical/Folk/Patriotic) or
- iv) Creative Craft— (Card Making/Origami Article/Craft-Best out of Waste)

The ingenious budding stars of D.A.V veritably showcased a plethora of creative performance so candidly featured by them. The mandatory participation brought forth the hidden talent of even those who were not able to recognise their skill earlier. Their effort can also be witnessed manifold. Students selected any one activity and submitted one-minute video of Solo Vocal, Solo Instrumental, Solo Dance and photo/PDF of Creative Craft.

Needless to state that, the children's appreciative effort and their interest would surely continue during vacation as well, which would definitely have a therapeutic effect and healing power to rejuvenate themselves during vacation.
