**D.A.V. PUBLIC SCHOOL
THANE
"SAVE SOIL MOVEMENT"**

Dear parents,
Greetings!

- As you may be aware, soil – the basis of our life on this planet – is in danger.
- The topsoil, which is home to trillions of organisms, is losing its biodiversity.
- The UN says soil could go extinct in just 60 years.
- Every responsible scientist says by 2045, we will have 40% less food while the population is expected to grow to 9.2 billion; violence and civil strife is a very real possibility.

As a part of CBSE initiative to encourage students to understand the consequences of "Soil Depletion" and the need to conserve this resource, the school is urging students to participate in "Save Soil Movement" launched by Sadhguru, a well-known spiritual leader. Students can go through the guidelines explained through a video (ref: <http://bit.ly/SSM-Video-Schools-Eng>). The Conscious Planet - Save Soil movement is a global effort to act now:

Students can participate by writing a letter to PM by suggesting ideas, video or audio message. The letters by the students to the Honourable Prime Minister can be submitted via Online or Offline mode latest by 30th May 2022. The website for the online letter submission is <https://studentsforsoil.consciousplanet.org/>. Students can also send their letters at the following address: Isha Foundation(Delhi Centre), 4 Osho Drive, Mandi Gaon Road, Gadaipur, New Delhi -110030.

File size: up to 100 MB

Students can upload image/audio/video file

Thanks and Regards

Principal

Mrs. Simmi Juneja
