

## ENVIRONMENT CLUB ACTIVITIES

***“Let’s nurture the nature so that we can have a better future”***

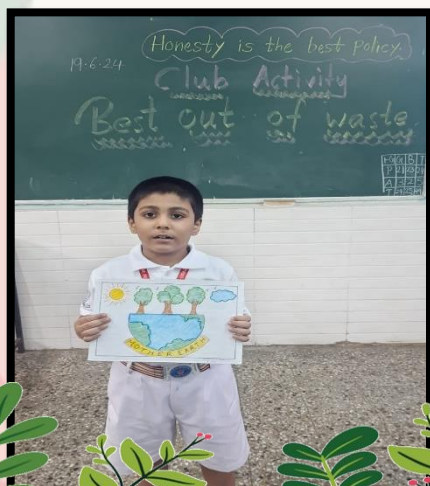

DAV Public School Thane conducted Environment Club in the month of June for std 1 to std 5. The Environment Club is dedicated to fostering environmental awareness and stewardship among students. The club aims to inspire young minds to become proactive in protecting and preserving our planet for future generations. The club offers a number of activities for std 1 to 5. By engaging in a variety of activities, the club encourages children to explore their talents, express their creativity, and develop a deeper understanding of environmental issues. The activities were conducted in the classes in the month of June .

### **STD: I & II**

#### **1. THE BEAUTY OF NATURE**

(Recitation of a short poem on “Mother Earth”)

The students recited a short poem dedicated to "Mother Earth," expressing their love and respect for the planet. The poems highlighted the beauty of nature and the importance of protecting the environment. Through their recitation, the students conveyed a powerful message about the need for environmental conservation.

## 2. CREATIVE RECYCLERS: FROM WASTE TO WOW

(Create items by recycling the waste)

In the "Creative Recyclers: From Waste to Wow" activity, students made new items from waste materials. They turned trash into useful and decorative objects, showing their creativity. This activity taught the importance of recycling and reusing waste.

## 3. CONSERVE TO PRESERVE ( Prepare a Green Badge on "Save Water")

In the "Conserve to Preserve" activity, students prepared Green Badges with messages about saving water. They designed badges to raise awareness about the importance of water conservation. This activity encouraged everyone to think about ways to save water and protect our resources.

### STD: III

#### THE GREEN CHRONICLES-A PLANT'S TALE

(Role play on any category of plant like herb/ shrub/ tree/ climber/ creeper portraying its unique role in the environment.)

The students performed a role play showcasing various plant categories: herbs, shrubs, trees, climbers, and creepers. Each student portrayed a specific plant type and explained its unique role in the environment.

### STD: IV

#### MANGROVES- GUARDIANS OF THE COASTAL REALM

(Create a poster on mangroves and the environment, and deliver an oral presentation.)

The students created an informative poster highlighting the importance of mangroves in protecting coastlines and supporting biodiversity. During their oral presentation, they explained how mangroves prevent soil erosion, provide habitats for various species, and contribute to carbon sequestration. Their effort emphasized the crucial role mangroves play in environmental conservation and the need for their protection.

**STD: V**

## **GREEN GROWTH- PLANTS AND THE PATH TO A SUSTAINABLE ENVIRONMENT**

(Elocution on plants and their role in environment.)

Elocution on plants highlighted their crucial role in the environment, emphasizing how they produce oxygen, reduce carbon dioxide, and support ecosystems. The presentation underscored the importance of conserving plant life for maintaining biodiversity and combating climate change. Overall, it provided valuable insights into the interconnectedness of plants and environmental health.

The students enthusiastically took part in the different activities. The students demonstrated a strong commitment to making a positive impact on the environment. These activities not only provided valuable educational experiences but also fostered a sense of responsibility among the students.
