Dear Parents Greetings!!

September the month of exams. **Concentration** is one of the most important part during examinations. **Time Management** is also another important part to be taken care of during examinations. **A proper good night's sleep** is very essential during exams. Sleep plays a very vital role in a normal functioning of a body. **A healthy and proper diet** during exams is also another essential part during exams. Most students refused to have a balanced diet when exams are at the threshold. We wish and motivate the students to make proper use of their time to study and manage their projects well. We also wish all our students a very happy, healthy and honest online exam during Covid-19.

Stay Home, Stay Safe!

Life

Life is a definite goal, surely to be achieved.

Life is never burden, which is to be heaved.

Life is tough struggle, as the elders say.

Life is no joke, to be taught away.

Life is a contest, to be won for sure.

Life is no disease, so hard to cure.

Life is a journey, comfortable to be made.

Life is no such gamble, which is to be played.

SWACHHATA PAKHWADA

MOVEMENT TO BAN SINGLE USE PLASTIC

D.A.V. public school, Thane, in her continuing efforts to increase awareness of cleanliness practices amongst her students, observed 'Swachhata Pakhwada' from 1st September to 15th September; from standard 1 to 10 as guided by CBSE.

The fortnight focused on sharing the knowledge of methods, to replace single use plastic, to implement six R's, to segregate single use plastic for recycling. Students wrote, displayed slogans and performed role play. Variety of materials were used creatively by students as they displayed the eco-friendly articles to replace plastic articles/single-use plastic bags. Some other articles were also made to reuse plastics. The students not only participated in the activities but also motivated their peers to use practices to eliminate single-use plastics.

During the swachhata *pakhwada*, the virtual academic days started with assembly, where students displayed **slogans creatively**. Students made simple yet impactful slogans.

They **performed role play** as they described the pollution of land and water due to plastic. Through the role play they were successful to convey that, improper disposal of plastic leads to pollution of our resources.

ROLE PLAY BY STUDENTS

Simple but creative learning tool, like **making bag of ecofriendly** material stimulates creativity amongst students. They made the bags artistically with eco-friendly material and displayed them as a substitute for plastic bag.

SUBSTITUTE FOR SINGLE -USE PLASTIC BAGS

In the present set-up of virtual classrooms, students used variety of eco-friendly material available at home and made a plethora of attractive articles. Parents supported students in their creative attempts to make these articles. These included re-use of plastic can and making of wall hanging artifact, bird feeder etc. Students made organisers made from paper which can replace a plastic organiser.

Poster making activity is popular amongst students, as they have abundant ideas and accessories to make an impactful poster. Students expressed their ideas of saving environment through demonstration of six R's, reduce, reuse, recycle, recover, redesign and remanufacture. Apart from the syllabus, the importance of R's was accentuated once again here. Students reiterated the importance of six R's for sustainable development.

The various activities conducted by the school emphasized the importance of elimination or single-use plastic from our life and our environment. Students were made aware of various alternatives to plastic accessories. Peer to peer demonstration of re-use of plastic gave the students an idea to re-use it. In order to eliminate 'single-use plastic like carry bags, water bottles, back in 2017, the school had set guidelines for students to maintain plastic free environment.

Circulars related to 'cease plastic' were regularly sent to the parents and students to sensitise them. Every classroom had been equipped with dustbins for dry waste and wet waste to segregate the waste. These initiatives and activities not only guided students to save environment but also reminded the other stakeholders about their role and contribution to the movement, 'Ban single-use plastics.'
