D.A.V. PUBLIC SCHOOL, THANE
SESSION: 2026–2027
CYBER SECURITY AWARENESS WORKSHOP
DATE: 2.11.2026
CYBER SMART, CYBER SAFE – BUILDING AWARENESS IN THE DIGITAL WORLD

DAV Public School, Thane, organised a **Cyber Security Awareness Workshop** for the students of Standard IX on 2nd November 2026, in collaboration with **Chitalsar Police Station, Thane Police Commissionerate**. The initiative aimed to sensitise students to the growing challenges of the digital world and equip them with the knowledge and skills required to stay safe and responsible online. The workshop was also conducted as part of the school's observance of **Vigilance Awareness Week**.

The workshop focused on creating awareness about various cyber threats, online safety, digital footprints and the importance of responsible internet usage. With technology and social media becoming an integral part of students' everyday lives, the session highlighted the need to exercise caution, remain vigilant and understand the potential risks associated with the online world.

The resource persons from Chitalsar Police Station interacted with the students and shared valuable insights into different forms of cybercrime, including online fraud, phishing, identity theft, cyberbullying and the misuse of social media platforms. **PSI Jadhav** addressed the students, creating awareness about corruption, its consequences and the importance of integrity and ethical values. He also discussed various cybercrimes and highlighted the precautions that young internet users must take while navigating digital platforms.

Students were made aware of essential cyber safety practices, such as protecting personal information, using strong passwords, avoiding suspicious links, exercising caution while communicating with strangers online and reporting cybercrime promptly. The importance of maintaining a responsible digital footprint and thinking critically before sharing information online was also emphasised.

As part of **Vigilance Awareness Week**, the students also took the **Vigilance Awareness Pledge**, reaffirming their commitment to honesty, integrity, transparency and ethical conduct. The pledge encouraged them to remain vigilant against corruption and uphold moral values in their everyday lives. This meaningful addition reinforced the connection between digital responsibility and responsible citizenship.

The workshop served as an informative and meaningful initiative, empowering students to navigate the digital world with greater awareness, confidence and responsibility. It reinforced the message that digital literacy must go hand in hand with digital safety and ethical awareness.

Through this collaborative initiative, DAV Public School, Thane, reaffirmed its commitment to student safety and holistic development, preparing young learners to become informed, vigilant and responsible digital citizens.
