LET US CELEBRATE OUR MOTHER NATURE WITH LOVE & RESPECT

“Let’s nurture the nature so that we can have a better future”

In conjunction with Environment Day, D.A.V, Thane is organizing a series of activities that aims to create a platform for students who share a passion for environmental protection and sustainability to come together, exchange ideas, and collaborate on meaningful projects and initiatives. This day provides us with an opportunity to reflect on our role in preserving and protecting our environment. It is essential for all of us to come together and contribute towards sustainable practices that can help build a better future.

In an effort to make this drive more effective and successful, Environment Club offers a plethora of activities, wherein the children can explore their talent and creatively present their views on different environmental issues.
