D.A.V. PUBLIC SCHOOL, THANE
SESSION: 2026–2027
CAREER GUIDANCE SEMINAR
DATE: 31.10.2026

PATHWAYS TO POSSIBILITIES – SHAPING FUTURES, INSPIRING CHOICES!

DAV Public School, Thane, organised an enriching **Career Guidance Seminar** for the students of Standard X and their parents on 31st October 2026. The initiative aimed to guide young learners towards informed career decisions by helping them explore diverse professional opportunities, recognise their individual strengths and understand the educational pathways leading to their aspirations.

The session was conducted by **Dr. Suchitra Surve, Director, Growth Centre India Private Limited**, an experienced career counsellor who provided valuable insights into the evolving world of careers and professional opportunities. The seminar witnessed an encouraging response, with nearly **180 students and parents enrolling** for the programme, reflecting the importance attached to career planning at this crucial stage of a student's academic journey.

The interactive session focused on helping students identify their interests, aptitudes, abilities and career aspirations. Dr. Surve guided the participants through various educational streams, emerging career trends and the wide range of professional possibilities available beyond conventional career choices. She emphasised the importance of understanding one's potential, making informed decisions and aligning career choices with individual interests and strengths.

The seminar also highlighted the significance of parental involvement in shaping a child's future. Parents were encouraged to support their children in exploring suitable career options while allowing them to recognise and pursue their individual capabilities. The programme provided a common platform for students and parents to interact with an expert and gain clarity about future academic and professional pathways.

Adding further value to the initiative, students and parents were also informed about the option of opting for a **psychometric assessment and one-to-one counselling session** following the seminar, enabling a more personalised understanding of students' interests and aptitudes.

The seminar proved to be an informative and meaningful experience, empowering students to approach their future with greater awareness, confidence and clarity. It reinforced the belief that successful career planning begins with self-discovery, informed choices and proper guidance.

Through this initiative, DAV Public School, Thane, reaffirmed its commitment to supporting students beyond academics and preparing them to make purposeful decisions for their future.
