D.A.V. PUBLIC SCHOOL, THANE
SESSION 2021-2022

REPORT ON ICT CLUB ACTIVITIES

Technology is a broad field that continues to widen. Opportunities abound for students to turn their interest in computer technology into new innovations and challenging and rewarding careers. Participating in student clubs can help students manage stresses and thrive. Club activities offers students many opportunities to explore their interests, imagine and realize possibilities. It helps students build expertise, make connections, and gain confidence, all the while learning to work with and appreciate their peers.
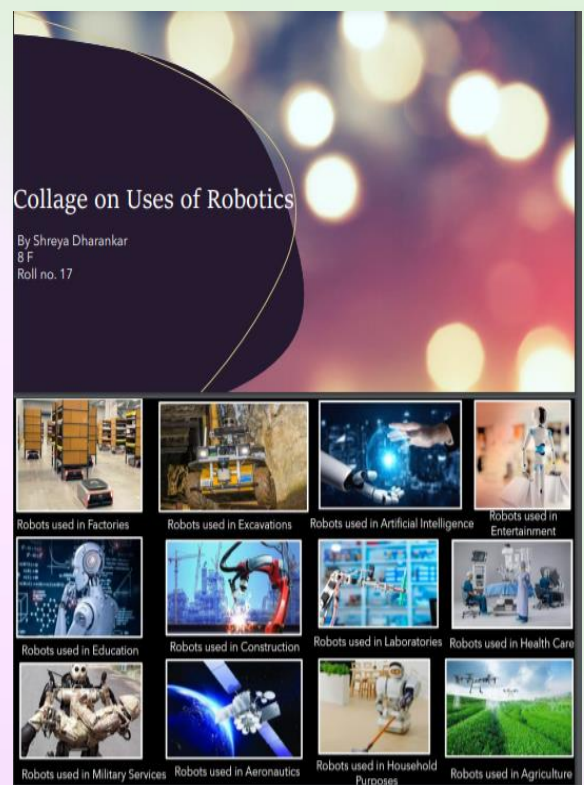

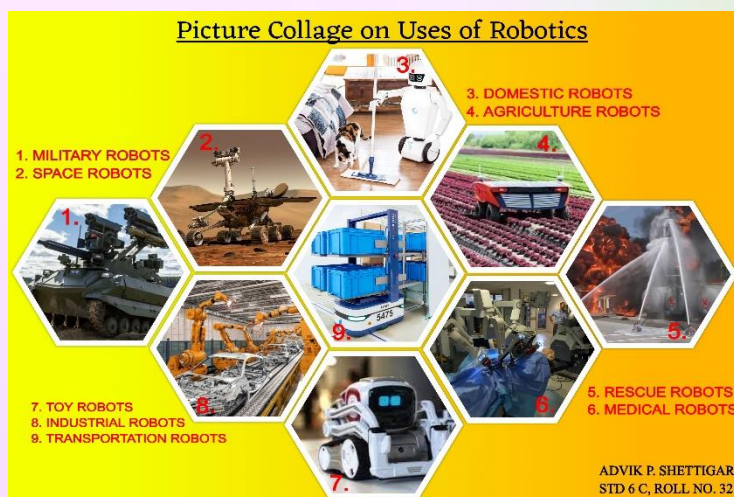

ICT club activities aimed to provide students the opportunity to hone their design skills and to appreciate the new trends in technology.

The following activities were conducted as part of ICT Club this year:

Std 6, 7 and 8 - Picture Collage on Uses of Robotics OR Photo Dictionary on Computer related famous Personalities (PPT slides)

9 & 10 – Picture Collage on Uses of Robotics OR Photo Dictionary on Computer related LOGOs (PPT slides)

Students participated enthusiastically and submitted their excellent work to the teachers.

USES OF ROBOTICS

Applications of Robotics

**Uses of Robotics:**

Industrial application:
- Material handling
- Material transfer
- Machine loading and unloading
- Spot welding
- Continuous arc welding
- Spray coating
- Assembly
- Inspection

Uses of robots:
- household robots
- service robots
- robots in dangerous environments
- medical robotics
- human-robot collaboration

DELL

Bio: Michael Dell
- Founder of DELL COMPUTER
- Developed the concept of selling personal computers via mail-order, revolutionized the way computers are sold while also helping to drive the price of PCs down. His idea has flourished into one of the top suppliers of quality computer equipment in the world.

Vinod Dham
