

**D.A.V. PUBLIC SCHOOL, THANE**  
**SESSION: 2021 – 2022**

**REPORT**

**TOPIC: DIGITAL INDIA**

**DATE:29.01.2022**

**PRESENTER'S NAME: MS.SANIKA AMBADKAR**

**ORGANIZED BY: D.AV. THANE RECONNECT INITIATIVE**

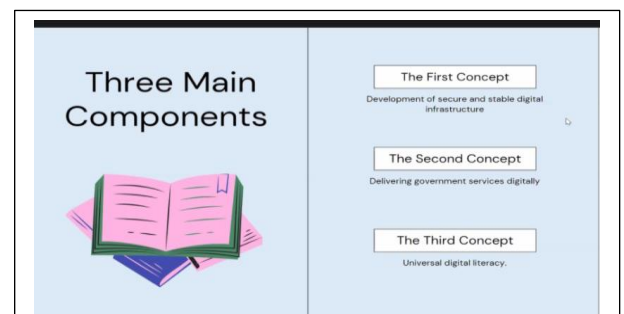

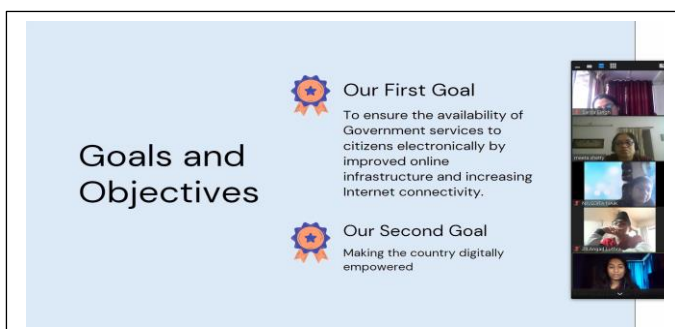

**DESIGNED FOR: STUDENTS (STD VI)**

The session started with a brief introduction by the Presenter about herself and the objective for taking up this presentation. She tapped the young minds of the students who were eagerly looking forward to their alumni of their school.

The presenter briefed the students with the concept of 'Digital India', and its importance in today's world. It was shared that 'Digital India', is an important campaign started by the Government of India with a vision to transform India into digitally empowered society.

The students were also made aware of the objectives of 'Digital India'.

- To empower the country's population digitally and build a governance model based on the electronic infrastructure.
- To facilitate E-governance in the nation to advance the implementation of the programs and policies effectively.
- To encourage digital literacy among the masses and build a new India on the pillars of knowledge.
- To make all digital resources universally accessible to everyone in the nation.

The students were also made familiar with the term of 'Cashless India' and the importance of the same was shared.

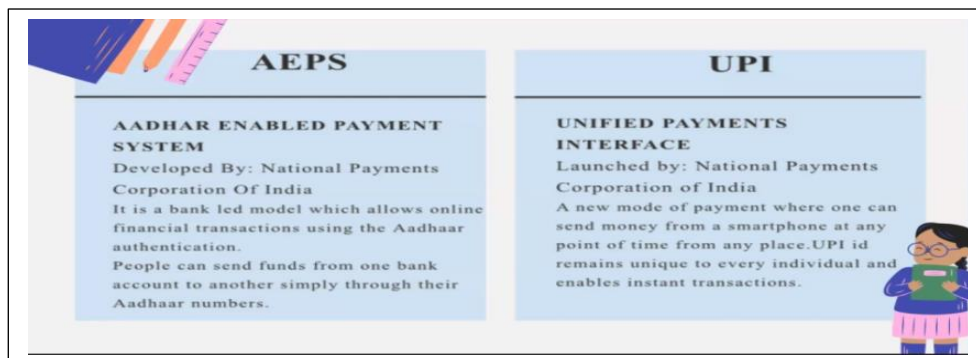

#### **Advantages of Cashless Economy:**

- No Forged Currency
- Transparency
- Limited Cash Fraud
- Effortless payment
- Easy International Pay.

Some of the types of Digital Payment Method in India were also listed :

- Banking Cards
- USSD
- UPI
- AEPS
- Mobile Wallets
- PoS
- Internet Banking

The students were also made aware of 'Aadhar Enabled Payment System' and how transaction can be done by making use of Aadhar number but after proper verification. They were also made familiar with UPI and how it is generated and the significant role played by it in enabling the people to do online transactions by using their smart phone.

Thereafter, the students were shown a video on 'Digital India' and they came to know about E-signature and how the same can be uploaded electronically and can be used for several official purpose. They were also acquainted with Digi-locker which can be used to securely store e-documents.

The session ended with a brief interaction between the students and the presenter to clarify their doubt, if any.

**Takeaways:** The students came to know that about the nuances of digital payment and emerging technologies. They were enthralled throughout the presentation. The aim of the presentation was to ignite the minds of young generation, encouraging them to take an astronomical leap for their future dreams.
